We the undersigned support the meat room workers in Coles' stores through-out the State of Victoria and Australia in their attempts to retain their current penalty rates & conditions, to secure family friendly work rosters and appropriate wage increases both now and into the future.

We are appalled that Wesfarmers continue their DOWN DOWN campaign against meat room workers wages and conditions while they paid former Coles boss Ian McLeod almost $55 million under a private equity-style pay deal.

We feel that it is Un-Australian that Wesfarmers are prepared to pay their CEO's these obscene sums of money while trying to reduce ordinary hard working Australian meat room workers of their current working conditions.
